

10+ Years of Personalized Teaching

We are academic and test prep specialists. Students seek our expertise because of our knowledge of the school curriculum, individualized approach to learning, and proven curriculum. We also consider each student's learning style during the evaluation process and lay out an academic plan for each student rather than take a one-size-fits-all approach.

SAT & ACT

Students from all over the Bay Area seek our expertise because of our proven curriculum. We are primarily known for efficiently and effectively preparing students rather than dragging out the process. We use our proprietary and unique curriculum that our co-founder Diana Wang developed. She continues to tutor students for the SAT & ACT.

Our test prep team are veteran tutors with proven track records and deep knowledge of the exams. During the initial consultation, we analyze each student's diagnostic scores and provide a detailed plan to boost each student's scores.

HIGH SCHOOL ACADEMIC TUTORING

We believe that each student learns differently and a one-size-fits-all approach to learning does not always fit the student. We are familiar with the local curriculum, and our personable tutors are experts in the subjects they teach.
